FEBRUARY 2006 STROKE: The topic for heart month this year is stroke. Stroke is a type of cardiovascular disease that affects the arteries leading to and within the brain. About 700,000 Americans suffer from a new or recurrent stroke each year resulting in a stroke occurring about every 45 seconds. Stroke kills nearly 163,000 people a year (about 1 of every 15 deaths) and is the third leading cause of death behind other diseases of the heart and cancer.

Hardcopies of the stroke packet will be available at all medical and fitness facilities. If you or your department/organization would like to be added to the monthly packet hardcopy distribution list, please call Kris Calderon at 867-3414. The packet will also be available on the new HEWP website: <http://hewp.ksc.nasa.gov> (this site is outside the KSC firewall!).

SPECIAL 2006 HEART HEALTH MONTH PROGRAMMING: GO RED FOR WOMEN During American Heart Month:

The Go Red For Women (GRFW) movement raises women's awareness of their risk for heart disease and helps them learn - and take action to reduce - their personal risk for heart disease. As we begin year three, GRFW harnesses women's energy, passion and power to band together and collectively wipe out heart disease. These are components of the GRFW movement for 2006:

Love Your Heart: This year the American Heart Association is encouraging women to love their hearts by visiting their healthcare provider to learn how to incorporate heart-healthy habits into their daily lives.

The Red Dress Pin: Millions of Americans have added the red dress pin to their wardrobe to support the women and heart disease movement. To get a free pin, call Proud Go Red For Women Sponsor Wuesthoff Health System at (321) 636-2211 ext.1504. Some red dress pins will also be available at the spaceport clinics.

Go Red For Women: State of the Heart: In February 2006, the American Heart Association will announce several gender-specific scientific statements in a news conference that provides a snapshot of the state of women and heart disease.

Consumer Education: The American Heart Association has compiled materials for consumers such as a cookbook, brochures, wallet cards, book marks, posters, Web alerts, screen savers, e-cards, etc. Several pieces of American Heart Association materials will be distributed throughout the spaceport clinics, cafeterias, fitness centers, and month health education table (mentioned above).

Community Events: In addition to the heart health activities and information distribution on the spaceport, there are several heart health community events being held in February:
